

## Our Mission

- To contribute to the excellence of mental health and addictions research in British Columbia by strengthening relationships among researchers across disciplines, institutions and health services organizations
- To build research capacity and foster collaborative research that will inform policy and practice in the field of mental health and addictions

## Our Vision

- To significantly advance the development of collaborative research and to help BC become a leading force in mental health and addictions research in Canada

## Join Us

- The BC Mental Health and Addictions Research Network is one of eight health of population research networks funded by the Michael Smith Foundation for Health Research. To learn more, or to participate in the Network, please visit our website at:
